

Day 3 – Revision 1 of My very first real French conversation

You already learned in the previous days:

- basic interactions (greeting, etc...)
- how to say your name
- how to tell your age

Step One / Étape Un

Below you will find illustrations taken from the sentences learned in the previous days.

Using these illustrations, say what you need to say in French.

If you don't remember the sentence, go back to the corresponding day, and relearn the sentence.

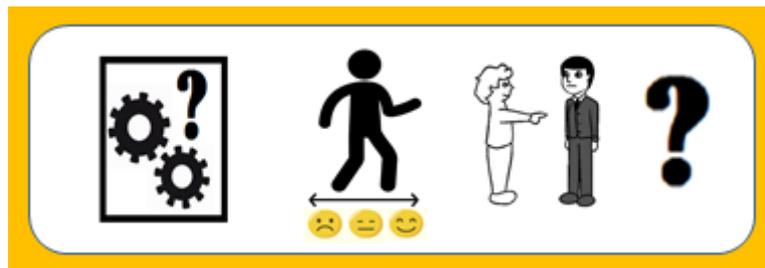

If you are no longer sure of the pronunciation, listen again to the corresponding audio file.

It is important to say these sentences out loud.

For the more determined of you, you can then (optionally) write these sentences down.
